

SHARP BRAINS

SUMMIT

March 30th-April 1st, 2011

Retooling Brain Health for the 21st Century

The SharpBrains Summit, now in its second year, is the premiere conference where industry, research, and policy leaders from around the world gather to discuss emerging best practices to assess and enhance brain & cognitive fitness across the lifespan, and to explore the opportunities, partnerships, distribution channels, and standards of this rapidly evolving industry.

In January 2010 SharpBrains successfully organized the inaugural SharpBrains Summit, which featured a dream team of over 40 speakers and gathered over 250 participants in 16 countries. 92% participants surveyed rated their overall experience as "Very High" or "High".

The 2011 Summit will be a global virtual event, leveraging online tools for webinars, discussions, and networking, combined with social gatherings in cities with enough critical mass.

What:
SharpBrains Summit, a 2-day conference plus one day of exhibition

Where:
Online globally

When:
March 30th-April 1st, 2011

Why:
To enable a forward-looking discussion of emerging demands, research, technology and best practices, and accelerate innovation
